Summary:

FullStack Web Developer, enthusiastic about **MERN stack & RN.** Highly motivated with leadership skills. Eager to learn new technologies and methodologies. As a former Technical Support Engineer with **BS.c. in Software Engineering** - I'm driven to project my skills in **solving problems** into the software world.

Experience:

2021 A coding project for Appleseeds

- Transforming the platform from **AngularJS to React**, examining the former portal design, **API** calls & responses testing them in **Postman**
- Developing better components utilizing **React** library and **Material-UI** framework.

2013- 2020 Technical Support Engineer - SeatGeek Inc

- Design ticketing sites and landing pages based on client requirements, using **JS, CSS, HTML.**
- Setup and maintain client's env. On Netvision, self-hosted and **AWS servers** activate application channels.
- Install and support third-party integrations ie. Passbook, Facebook SSO, Sports Alliance SSO, Paypal, Queue-it.
- Write and execute **SQL data** fixes on **MSSQL** test/production DB.
- Provide support to our worldwide client for our ticketing SaaS

✔ **I have reduced the number of JIRA TKTs forwarded to Web and Core teams by 30%.**

.

2011- 2013 QA tester, Qualitest. Microsoft Project, Personal Data Dashboard website

- Performing manual tests on web applications along with writing QA STD, STP, STR.

Education:

2021 - Full Stack JavaScript Bootcamp graduate - Appleseeds Academy
Intensive 6-months, 720 hours training program that encourages self-led learning and group projects that simulate real-world development teams. Learning and applying the **MERN** stack.
2013 B.Sc in Software engineering, Ort Braude Karmiel
2012 CCNA Network Management course graduate - CISCO
2011 QA graduate - Qualitest: ISTQB, networks, STR, STD, STP

Coding Project:

MyBalance - a MERN fullstack (**MongoDB**, **Express**, **ReactJs**, **NodeJs**) **CRUD** application.
The back-end **server** uses Node.js + Express for **REST API**s, the front-end side is a React client with **React Router**, **Axios** & **Bootstrap**. **Bcrypt** for user authentication, to keep track of daily expenses.

Computer skills and technologies:

Programming languages: React, MongoDB, Redux, React Native, JavaScript, HTML5, CSS3, SASS, Bootstrap, MySql, JQuery, TypeScript, Jest, MsSQL, Python.
Other technologies: Github, AWS, Heroku, JIRA, SalesForce, Docker.

Military Service: **2002-2006:** Duty service in the Artillery Corps, released as Lieutenant.
Volunteering: **2008-2012:** working with youth in "Aharai Lezahal" (אחרי לצה"ל).
Languages: Arabic - native; Hebrew – highly Proficient; English - proficient.
